LIVE POWER LINE MAINTENANCE REVERSE TRADE MISSION

OCTOBER 15-28, 2017

BUSINESS ROUNDTABLE

Monday, October 16, 2017 | 1:00 p.m.

U.S. Trade and Development Agency

1000 Wilson Boulevard, Suite 1500 | Arlington, VA 22209

As part of the China Live Power Line Maintenance Reverse Trade Mission, USTDA will host a half day business roundtable for U.S. companies. Delegates from China Southern Grid, National Energy Administration, and Inner Mongolia Power will present on their live wire maintenance and repair plans and goals in China.

BACKGROUND

To date, China has not deployed a widespread live power line maintenance program, but has plans to do so in the near future. The equipment highlighted during the visit will help delegates to improve operational efficiency and electrical line worker protection at their utilities. If China adopts regulations similar to the U.S., it would lead to stronger safety requirements and ultimately a demand for high quality products, **creating new opportunities for U.S. companies.**

ATTEND THE BUSINESS ROUNDTABLE TO:

- Learn about new project opportunities
- Connect with high-level decision-makers
- Inform the delegation of your business and the solutions it has to offer

**Registration is Required -
Save Your Seat Today!**

**For more information, visit the
event website or contact:**
